

MEAT PRICES ARE SOARING BECAUSE OF EUROPEAN WAR

Sending Thousands of Tons to Soldiers in Trenches Hits Housewives Here.

BIG RISE SINCE FEB. 1.

All Prices Are Up Several Cents a Pound and May Go Higher.

The European war finally has reached the American kitchen. It

History of Fat Reduction

Here is a bit of history published for the benefit of the world. For many years there has been published in the daily press a recipe for "overeating" the new, famous "Marquise" Prescription of an eminent physician. No doubt you have seen it, noticed it carefully and decided that when you had the time you would try for yourself the merits of this mixture. Many have successfully used this harmless remedy to their everlasting joy and benefit to health. The same great physician has condensed his famous Prescription into convenient tablet form, so that you have only to take after meals and at bed time a remarkably pleasant little tablet, containing all the effective, pure, harmless ingredients of the original prescription. The "Marquise" reduction to your normal self comes without dieting, self-denial or exercise, and leaves no wrinkles or fatness. "Marquise" Prescription Tablets are sold by all druggists or sent by mail to the "Marquise" Co., 25 Monroe Ave., Detroit, Mich. The price is 75¢ for a large case—a generous supply.

was not unexpected. The housewife of the United States has been anticipating an ultimatum ever since the war started, nineteen months ago, and it has now come. Meat prices in New York have taken a sharp upward trend, and the cause is the abnormal, unprecedented demand for meat in Europe.

The warring nations have been shipping thousands of tons of meats of all sorts to the soldiers in the trenches ever since the war began. With the increasing number of soldiers enlisted, the quantities of meat exported have increased.

The sharpest rise in meat prices has come within the last month. According to Manager Goldsmith of Washington Market the meat supply of the Nation is enormous at present, and nothing but the extraordinary exports of the last few weeks could have sent prices up so sharply.

Here is a list of retail meat prices furnished The Evening World by Washington Market to-day, showing the rise since Feb. 1:

Meat	Per lb.	Per lb.
Prime Rib of Beef (whole)	24-26	22
Prime Rib (half cut)	18	14
Roast Beef	18	14
Porterhouse	25-28	20
Chuck Steak	18	14
Whole Loin of Pork	18	14
Conch (whole ribs)	13	10
Shoulder of Pork	16-18	12
Ham (cured)	20	16
Leg of Lamb	22-26	22
Porterhouse of Lamb	18-20	16
Loin Chop of Lamb	20-24	18-20
Ribs of Lamb	20	16
Shoulder of Lamb	22	18
Stew of Lamb	12-14	10-12
Veal Cutlets	32-36	32
Veal Loin Chop	24-28	20
Veal Ribs	20	16
Veal Shoulder (small)	18	14

Some of the specialties, the Washington Market people said, remained unchanged in price. Tripe, which sold at 10 cents per pound at the beginning of the year, is to be had at the same figure. Pig's heads also are stationary at 7 cents a pound. You can buy oxtail for 12½ cents a pound. The European war has not meddled with these foods.

Mr. Goldsmith said his market had not raised prices till absolutely compelled to do so. In many of the double figures given in to-day's price list, he said, his markets were selling at the lower price quoted. However, the prices given above are rather below than above the average market prices throughout the city. In the suburbs, where grocers and butchers take it for granted people who can afford to pay commutation rates are better off than the dwellers of Manhattan, all prices are from 5 to 20 per cent. higher, according to the market men.

And the end is not yet, according to Mr. Goldsmith. The market is fluctuating, mostly upward.

ONE ON FATHER.

Six years ago Old Man Titus of Columbus, O., promised his boy Howard \$500 not to use tobacco until he was of age. Howard has gone to court to get his five hundred.

HOLD PALLBEARER FOR MURDER AFTER FUNERAL

Widow Accuses Prisoner of Having Murdered Man Whose Body He Followed to Grave.

WILMINGTON, Del., March 10.—William Handsher, twenty-six years old, was arrested last night charged with the murder of Percy G. Mattison, aged thirty, whose body was found in the Christina River on Tuesday. Handsher boarded with the Mattisons and was a pallbearer at Mattison's funeral yesterday. The arrest followed a statement made to Chief of Police Black by Mrs. Mattison, who said Handsher admitted last Monday night that he had killed her husband at South Wilmington, where he attacked him with steel buckles, carried his unconscious form to the river and held the head submerged until he was sure Mattison was dead and then set the body afloat.

THAT BIG GERMAN BAZAAR.

A Jaegers Masterpiece Will Be One of Many Attractions.

Mr. Albert Jaegers, the sculptor, has created another masterpiece, a statue, celebrating the first German phrygia, who arrived in Pennsylvania in the year 1684, starting the first settlement of Germans in this country. The descendants of these first German pioneers gave glorious service during the days of 1776 and all the years of the revolution.

GASOLINE PLEA TO FORD.

Congressman Thinks Auto Maker Might Help Reduce Cost.

WASHINGTON, March 10.—Representative Randall of California is preparing a letter to Henry Ford, asking the latter to use his brains and money in solving the problem of the high cost of gasoline. Randall wants Ford to test the so-called Rittman process for the manufacture of gasoline. By this method, it is claimed, the product can be manufactured at a greatly reduced cost. Randall believes that if no other way is found the Government should go into the gasoline business itself.

"Gasoline," he says, "is made from our natural resources, which belong to the people and not to a few Rockefeller. In my home city of Los Angeles gasoline advanced in price from 11 cents in October to 18 cents at present. I have figured that the additional cost to the automobile owners of that city is \$350,000 a month."

The Ice Water Is Free.

Permission will be sought by the Universal Free Ice Water Company, Inc., at to-day's meeting of the Board of Estimate for the erection of 600 drinking fountains throughout the city. Each is to be of iron, seven feet high and four feet in diameter. Their service is to be free, but the company asks the right to sell paper drinking cups at a cent apiece. A profit of 150 per cent. at this price is possible.

Saks & Company

Broadway at 34th Street

Phone 2626 Greeley

Sakswoven Umbrellas, \$5.00

Guaranteed for one year

Of fine quality taffeta silk on Lock Paragon frames. Sterling trimmed handles in straight and hook effects.

We have decided to feature in Our Misses' Department during the coming season unparalleled values in

Misses' Plain and Fancy Tailored Suits at \$25.00

Misses' Spring Coats at \$18.50 and Misses' Afternoon Dresses at \$18.50

Such extraordinary values in Misses' Apparel at these prices have never been known. The tailoring, the finish, and the linings are superior in every way to anything ever offered at the price.

The suits have coats in flare, box and cape styles, and the skirts are cut on entirely new lines, showing novel pockets and belts.

The fabrics include velour and shepherd checks, men's wear serges, gabardine, Poiret twill and English mixtures. Lined with plain or fancy silk.

As an example of these remarkable values, we illustrate one of our Misses' Suits at \$25—just one from an assembly of over twenty-five designs.

Combine both liquid and paste, thus requiring but half the effort to get a brilliant, lasting shine.

Are fine for children to use.

They contain no acid and will not crack the leather. They preserve the leather and thus increase the life of your shoes.

Keep Your Shoes Neat

Black & White Tan

THE R. D. DALLEY CO. LTD. BUFFALO, N. Y.

The May Manton Fashions

No. 9006—(With Basting Line and Added Seam Allowance.) Kimono with Set in Sleeves, Three Sizes. Small 34 or 36, Medium 38 or 40, Large 42 or 44.

THIS is a season at which kimono are sure to be under consideration, for the time of outings and holidays is approaching and the simple ones will be in especial demand for Pullman use. This model is excellent for that purpose and also for general wear. There is no fullness over the shoulders which is a desirable feature. On the figure, the fronts are cut wide and lapped in double-breasted style, but if preferred they can be cut a little narrower to form a single-breasted closing. There are almost numberless materials that are used for garments of this sort, but perhaps nothing is prettier than the simple Oriental silk crepe which is illustrated here. The hands are of the flower design and the whole effect is an attractive one, yet the materials are inexpensive and simple. There are Japanese cotton crepes that may be used if something a little heavier is wanted, and a great many women like challis for garments of this sort, and challis this year is to be found in a great variety of beautiful colors and designs. Cashmere makes serviceable and good kimono, and cashmere in some pretty color, such as American beauty red or delft blue, is just as charming as can be. The trimming always can be of silk or satin, and often on a plain material flowered or brocade material is used. For the summer, wrappers of this kind will be made of linen and taffeta and dimity, and also of cotton voile, and all these materials can be found in charming striped and flowered effects. Striped linen would be very pretty with trimming of plain color and is extremely serviceable, for it can be laundered again and again.

For the medium size will be needed 4½ yards of material 27 inches wide, 6 yards 36 or 38, 2½ yards 44 with ¾ of yard 27 inches wide for the trimming. The Pattern No. 9006 is cut in three sizes, small 34 or 36, medium 38 or 40, large 42 or 44.

How to Obtain These Patterns

IMPORTANT—Write your address plainly and always specify 120 wanted. Add two cents for letter postage in hurry.
